## Executive Overview

---

This document highlights important documentation in relation to the e-commerce website that will be constructed over the next few weeks as well a prototype of the future website along with our client's comments

The document begins with a revised Narrative Description of the Future Information System, in the form of a beautifully flowing narration, it includes detailed information of the goal and finished product from an admin as well as a client point of view. It describes how a client can navigate the website along with the advantages of having a dedicated platform. It describes how a client may add items to their cart and go through the checkout process which then updates the database and allows the seller to view, fulfil and mark the order as shipped. It also describes the two ways that a customer may contact the seller and how the seller may send promotional emails to her clients.

Next comes the business problems, which again remain the same, but we have found solutions for the four main issues related to our client's business and presented our solution to the client in a first prototype mockup. It features all 4 problems: limited way to post her products; receiving payments; inventory management; sending promotions. So the guidelines and prototype will give a good understanding of what features we will be implementing in our website and how they are going to solve each individual problem.

After the business problems we have 15 usability guidelines being followed by brief explanations for each guideline as well as any related sources and references.

Next, this document contains the client's comments containing the description of the process used to interact with the client as well as the client comments on the two revision rounds.

Following the comments this document gets in details about the changes made from one prototype to the next.

And finally the two appendixes: 1 – Revised User stories and tests that indicate what has changed, plus any new user stories and 2 – Revised story map that indicate what has changed which remained the same since our last delivery.

## Summary Narrative

---

Customers of Leen's Touch will soon have access to a website, instead of her Instagram profile. This means that, instead of visiting social media, our client's customers will be able to visit an actual website where they will land on the homepage when reaching the website. The homepage will have beautiful displays of Leen Antoun's work and a navigation bar allowing the customers to access multiple categories of products. On the top right-hand side of the webpage, clients will have a signup/sign in button which allows them to create an account or login to their account as well as a search bar to be able to quickly navigate to the item wanted in the catalogue. Having an account is necessary to finish checking out and buying products, therefore it is a recommended process for customers to complete.

When customers navigate through the catalogue they can see each and every product that is offered by the admin. When one of those products is clicked, the more detailed information is displayed on the website, such as an enlarged image, the name and full description of the item, its price, quantities available, as well as various customizable options such as colour, size, and more.

To complete a purchase, first a customer needs to add at least one item to their cart by clicking the "add item to cart" button when an item is displayed on their screen. Then, the customer may navigate to their cart by clicking on the cart icon in the top of their screen, there they will find a list of all items in their cart and they may manage their cart by removing items. Once the customer is satisfied with the entirety of their cart, they may click on one of two checkout options: checkout with Paypal or checkout with a debit/credit card. If the client is not logged into their customer account, or simply does not have one, that person will be redirected to the signup/signin page. Once through the process of being logged in, the customer may proceed by entering their billing and shipping information, the customer is redirected towards the website to complete their purchase and confirm once again that they are buying the item.

Once a purchase is completed client-side, the admin now has orders to manage and fulfil. The admin may navigate to the order management page and view a detailed list of orders. They click on shipped when it's sent out, but need to email the client with their shipping tracking if paid for, or click on the order to view the details of the items ordered. The admin must also email their customers to inform them when their order has been shipped.

In addition to the order management, the admin has access to the product management page. Our client may add, edit or remove products easily by filling or editing a form as well as simply clicking the remove button. This allows our client to

easily manage what items are displayed on her website. As all good web applications, this interface is self-explanatory and easy to use for the admin so that they do not waste their time.

As per good customer service, customers should be able to view what the website and owner are about as well as contact the owner of the small business if they have inquiries or issues. Leen's Touch offers this on their "About Us" and "Contact Us" page. The first of both pages states a little bit about Mrs Antoun and her business, possibly her story and how Leen's Touch came to be. The second of two, "Contact Us", displays a form where users, customers or not, may fill out their contact details and then write a message. That message will be sent to our admin. This page also has alternatives for contacting the admin, such as her social media and her email address in the footer of the page.

Finally, a possibility, but not a guarantee, of what this system may hold in the future is a review page. Customers who have had at least one order delivered might have the possibility of leaving reviews. The way that would work is that when the customer navigates to the review page, there will be a form to fill at the top with a rating and comment, and they may submit the filled out form. Another possibility may be a french website, as the business is located within a french province.

## Business Problem

---

After finishing the design of the UI, the team has realised that we have really fully understood the business problem in the past since there still has been no change in what the business problem we are fixing is as well as how we are doing so.

The first of four problems is the fact that her current way of conducting business on Instagram is very limiting to her. Our client, Mrs Antoun, is unable to display her products and show off every alternative and customization available to her customers. The website shall fix this by allowing her to post one post for the same item and all of its customizations instead of individual repetitive posts.

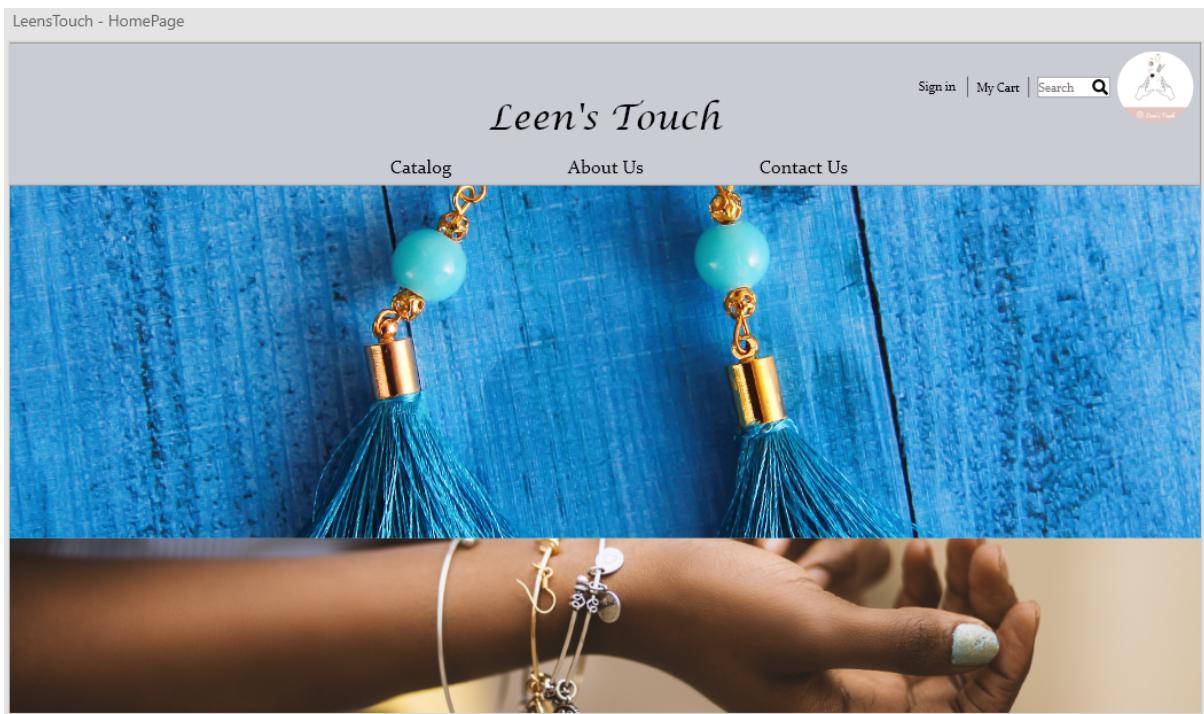

The second of four problems that our website will fix for our client is her main business issue: payments. Currently she is taking cash and paypal payments, which sometimes result in her not receiving the money after she has spent time and money creating a custom made item for her client. The website will require a payment upon ordering and will not allow a cash option. This new system will ensure that our client receives the money she is owed before she starts working on the items ordered.

The third or four issues that are being fixed with this new system is the inventory management. Excel sheets are currently being used to track what has been sold. With the website, there will be the necessary information on her admin page for her to not have to worry about creating excel sheets.

The fourth and final issue that this web application will solve for our customer is the lack of advertisement and promotional offers. Our client currently has no way to send promotional offers to her customers, making it impossible for them to know what is new in her store unless they visit her instagram page. The website we are creating, upon creation of an account, will allow customers to decide whether or not they would like to receive promotions by email and our client will then be able to advertise herself.

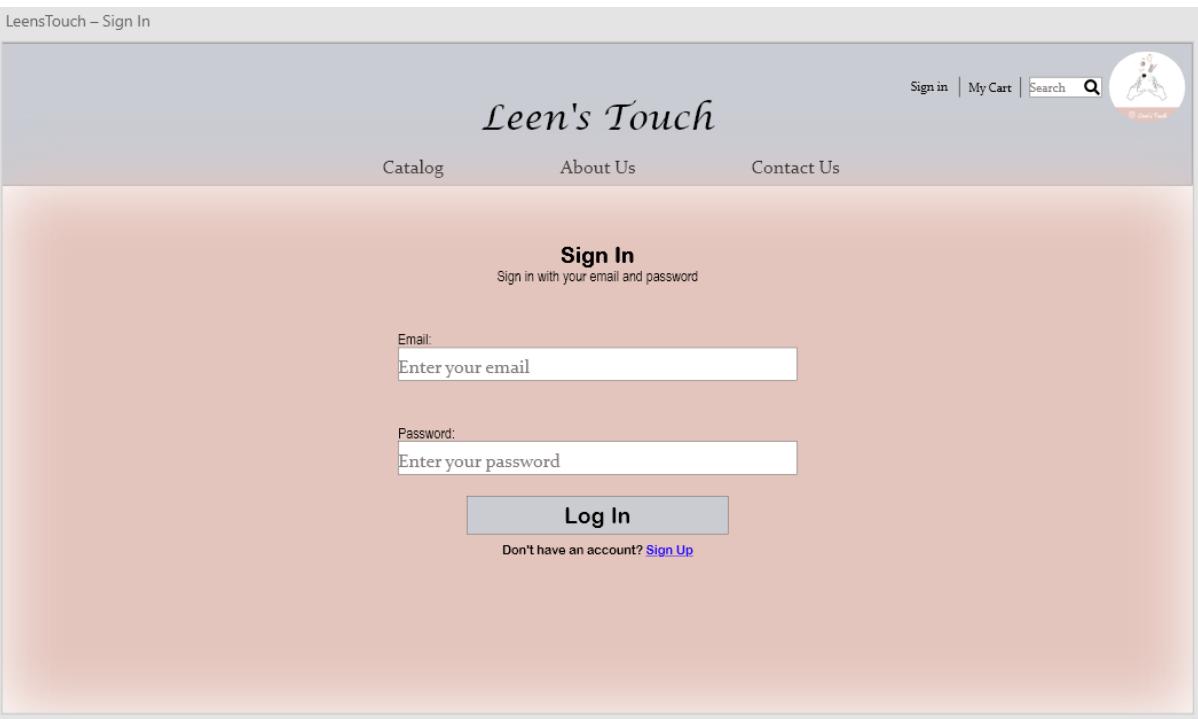

## Usability Guidelines

### Home Page:

- We decided to only have 3 links on the main page to keep the webpage simple and to the point.
- The sign-in/logout and my cart options will be a part of a header on every page.
- The search prompt is on the right corner to make it more natural, thus being separated from the main content.
- We made sure that the advertisement on the main page was as visible as possible to maximise promotion of the featured products.
- The page logo will act as a redirect button to visit the home page.

## Sign-In Page:

The screenshot shows the sign-in page for 'Leen's Touch'. At the top, there is a navigation bar with links for 'Catalog', 'About Us', and 'Contact Us'. On the right side of the header, there are links for 'Sign in' and 'My Cart', along with a search bar. A logo for 'Leen's Touch' is located in the top right corner. The main content area is titled 'Sign In' and contains instructions: 'Sign in with your email and password'. There are two input fields: one for 'Email' with placeholder text 'Enter your email' and another for 'Password' with placeholder text 'Enter your password'. Below these fields is a large blue 'Log In' button. At the bottom of the form, there is a link 'Don't have an account? [Sign Up](#)'.

- The sign-in page is going to have two functionalities, the first being to log-in and the second, to go to the sign-up page.
- The administrator will be able to login on this same page.
- The text fields are centred to keep the focus on inputting the necessary information and avoid missing anything.

## Sign-Up Page:

LeensTouch – Sign Up

Sign In'."/>

**Leen's Touch**

**Sign Up**

Already have an account? [Sign In](#)

- The sign-up page is going to have two functionalities, the first being to sign-up and the second, to be redirected to the login-in page after having signed up.
- The user will also be given the option to consent to receive promotional emails.
- In case of a mistake, the user can still have the option to go back to the login-in page.

## Catalogue Page:

- The catalogue will allow the user to browse all available products on the page in a grid layout to make it more intuitive and each product more distinct
- Each product image will redirect to its separate description page
- Each product contains a price to facilitate the shopping experience
- Each product contains an Availability flag to notice the user if the product is available at a certain time.
- Each product has a button in order to quickly add the product to the cart in order to save the user time if he is familiar with the product.

## About Us Page:

The screenshot shows the 'About Us' page of the Leen's Touch website. At the top, there is a navigation bar with links for 'Catalog', 'About Us', and 'Contact Us'. On the right side of the header, there are links for 'Sign out', 'My Cart', and a search bar. A logo for 'Leen's Touch' is also present. The main content area has a light gray background and features a heading 'About Leen's Touch' followed by three paragraphs of placeholder text (Lorem ipsum). To the right of the text is a small profile picture of a woman with blonde hair. At the bottom of the page, there is a footer bar with a social media icon and the email address 'Leen\_touch | leen.touch1@gmail.com'.

- Was designed in a story like pattern to have a flow to it and be easier to be edited by the admin.
- The about us page features an image box
- Contact links are added at the bottom in order to invite the user to check the social media as well after reading the about us paragraphs.

## Contact Us Page:

The screenshot shows the 'Contact Us' page for 'Leen's Touch'. The page has a header with the website name 'Leen's Touch' and navigation links for 'Sign out', 'My Cart', 'Search', and a logo. Below the header, there are tabs for 'Catalog', 'About Us', and 'Contact Us'. The main content area is titled 'Contact Us' and includes a sub-instruction 'Use this form to contact us'. It features several input fields: 'First Name' (placeholder 'Enter your first name'), 'Last Name' (placeholder 'Enter your last name'), 'Email' (placeholder 'Enter your email'), 'Address\*' (placeholder 'Enter your address'), and 'Message' (placeholder 'Write your message here'). A note below the address field states '\* Only if pertaining to a delivery'. At the bottom left is an 'Image:' section with a placeholder 'Upload Image' and a 'Upload Image' button. On the right side of the bottom row are 'Cancel' and 'Send' buttons. The footer contains the social media handle '@Leen\_touch' and the email address 'leen.touch1@gmail.com'.

- The Contact Us page features all the important tabs to fill in order to help the admin solve any issue related to the website, product or plain simple information request
- The user is also able to upload an image in order to better picture any issues
- The address tab is used for order 2 step identification when referring to a delivery issue

## Cart Page:

The screenshot shows the Leen's Touch website's cart page. At the top, there is a navigation bar with links for 'Sign out', 'My Cart', 'Search' (with a magnifying glass icon), and a logo for 'Leen's Touch' featuring a cartoon character. Below the navigation, the page title 'Leen's Touch' is displayed. The main content area shows two items in the cart:

Name Of Product	XX.XX\$
<b>Remove</b>	<b>Edit</b>
<b>Remove</b>	<b>Edit</b>

Each product row includes a dropdown menu icon (with 'X' and a downward arrow) and a 'Personalizations' section with placeholder text: 'Lorem ipsum dolor sit amet, consectetur adipiscing elit. Maecenas non purus id risus elementum faucibus eget quis nibh. Pellentesque nec turpis nisi.'

- The cart is designed to have all the crucial information to each product displayed
- The cart is formatted in a list style which helps fit the most information of each product
- The user can edit the quantity of the product by clicking the dropdown
- The user is able to remove any product from the cart by clicking the Remove button placed under the product image to make it more intuitive
- The user can edit the product request form the cart meaning, the user can change the personalisation request.
- The price of each product is displayed on the far right corner to separate it from the main content to have the user a good visual understanding of his future checkout total price

## Edit Account Page:

The screenshot shows the Leen's Touch website. At the top, there is a navigation bar with links for Catalog, About Us, and Contact Us. On the right side of the header, there are links for Edit Profile, Sign out, and My Cart, along with a search bar. A logo for 'Leen's Touch' is also present. The main content area is titled 'Edit My Account'. It contains three input fields labeled 'First Name', 'Last Name', and 'Email', each with a corresponding text input box. At the bottom right of the form, there are two buttons: 'Cancel' and 'Save changes'.

### Edit My Account

First Name:

Last Name:

Email:

- After logging-in the user is able to edit his profile using the Edit My Account form
- The user can cancel the action or save the new changes
- Everything is centred and their existing information will be displayed in the fields to avoid confusion

## Product Page:

LeensTouch - Product Description

**Name:** Name of the Item

**Price:** XX.XX\$

**Product Description:** Lorem ipsum dolor sit amet, consectetur adipiscing elit. Nunc at consectetur nisl.

**Colours Available:**

- > Colour
- > Colour
- > Colour

**Estimated Fulfilment Time:** X days

**Available:** X amounts

Add to Cart

- All of the product details will be displayed next to each other to give the shopper a nicer experience effectively avoiding confusion and providing as much information as possible to promote the purchase of the product.
- The add to cart button is enlarged and easily locatable.
- The image is displayed in large and with clarity on the left side of the page to give the shopper a good example of what they are buying.

## Cart Logged-In Page:

The screenshot shows a shopping cart page for 'Leen's Touch'. At the top right, there are links for 'Edit Profile', 'Sign out', 'My Cart', and a search bar with a magnifying glass icon. The logo 'Leen's Touch' is also visible. The main content area displays two items in the cart:

Name Of Product	XX.XX\$
<b>Remove</b>	<b>Edit</b>
	XX.XX\$
<b>Remove</b>	<b>Edit</b>

Each item row includes a small image of the product, the product name, the price, and 'Remove' and 'Edit' buttons. Below each image is a 'Personalizations' section with placeholder text.

- When logged in the user will have the option to sign out through the simple press of a button
- This button is located on the top right corner of the webpage in the header to be easily accessible from any page

## Admin Catalogue Page:

The screenshot shows the 'Leen's Touch' admin catalogue page. At the top, there are navigation links: 'Add a product', 'Products', 'Promotions', and 'About Us'. On the right side, there are links for 'Sign out', 'My Cart', and a search bar. A logo for 'Leen's Touch' is also present.

Image	Name: Name Of Item	Price: XX.XX\$	Status	Edit	Delete
	Name: Name Of Item	Price: XX.XX\$	Available	<button>Edit</button>	<button>Delete</button>
	Name: Name Of Item	Price: XX.XX\$	Available	<button>Edit</button>	<button>Delete</button>
	Name: Name Of Item	Price: XX.XX\$	Sold out	<button>Edit</button>	<button>Delete</button>
	Name: Name Of Item	Price: XX.XX\$	Available	<button>Edit</button>	<button>Delete</button>
	Name: Name Of Item	Price: XX.XX\$	Available	<button>Edit</button>	<button>Delete</button>
	Name: Name Of Item	Price: XX.XX\$	Available	<button>Edit</button>	<button>Delete</button>
	Name: Name Of Item	Price: XX.XX\$	Available	<button>Edit</button>	<button>Delete</button>
	Name: Name Of Item	Price: XX.XX\$	Available	<button>Edit</button>	<button>Delete</button>

- The admin, after logging-in in the admin panel can navigate to the Products tap in order to view the current catalog.
- Everything will remain in the same format as when the user views it to allow for a simple preview system.
- The admin is able to delete any product available by using the Delete feature that is strategically placed under each product and highlighted in red
- The admin can choose to edit any product's image, description, availability, colour, or expected fulfilment time by using the edit button placed in an opposite corner of the Delete button.

## Admin About Us Page:

The screenshot shows a web page titled "Leen's Touch" with a navigation bar at the top. The navigation bar includes links for "Add a product", "Products", "Promotions", and "About Us". On the right side of the header are "Sign out", "My Cart", a search bar with a magnifying glass icon, and a logo for "Leen's Touch" featuring a cartoon character.

The main content area is titled "About Leen's Touch". It contains two sections of text and an image. The first section of text is as follows:

Lorem ipsum dolor sit amet, consectetur adipiscing elit. In sed efficitur ex. Etiam auctor erat a quam hendrerit sodales. Pellentesque feugiat vestibulum eros, quis auctor purus dapibus eu. Interdum et malesuada fames ac ante ipsum primis in faucibus. Nullam eu placerat urna. Donec eget turpis ornare, rhoncus sem ut, blandit nunc. Sed elementum augue vel elementum feugiat. Curabitur molestie cursus scelerisque. Pellentesque ac dui non libero mollis aliquet. Praesent molestie finibus vulputate. Nunc id nisi ac quam auctor auctor posuere condimentum purus.

The second section of text is as follows:

Sed euismod arcu ac ex condimentum, ac tempor ligula placerat. Quisque quis lacus ac dolor imperdiet laoreet vitae vitae diam. Morbi commodo sodales eros eget laoreet. Curabitur aliquam augue in semper placerat. Vestibulum laoreet ultricies arcu non suscipit. Maecenas sem lectus, mollis a enim sit amet, ultrices bibendum neque. Fusce a nunc vestibulum justo mattis auctor iaculis quis leo. Mauris sit amet massa lorem.

Below the text is a small image of a woman with blonde hair, and a "Change Image" button. At the bottom of the page are three buttons: "Edit text", "Cancel", and "Update". The footer of the page displays the email address "Leen\_touch | leen.touch1@gmail.com".

- The admin will be able to edit their about page by changing the image and the text displayed through the simple click of two buttons.

## Admin Product Page:

The screenshot shows a product listing page for a brand named "Leen's Touch". The main image is a textured, light-colored clutch bag with a black strap and a small potted plant. Above the image, a sign reads "LEEN'S TOUCH". To the right of the image are several input fields and buttons. At the top right are links for "Sign out", "My Cart", and a search bar. Below the search bar is a logo for "Leen's Touch". The navigation menu includes "Add a product", "Products", "Promotions", and "About Us". The product details section includes fields for "Name" (with placeholder "Name of the Item"), "Price" (placeholder "XX.XX\$"), "Product Description" (placeholder "Lorem ipsum dolor sit amet, consectetur adipiscing elit. Nunc at consectetur nisl."), "Colours Available" (with three options: > Colour, > Colour, > Colour), "Estimated Fulfilment Time" (placeholder "X days"), and "Available" (placeholder "X amounts"). At the bottom are buttons for "Change Image", "Cancel", and "Save".

- The admin's product page will give access to editing each field in the same area that the user will view them to be able to easily preview the page's format
- Each field will be filled with the pre-existing information from the product and will be editable by simply changing it's text or image and selecting the save button

## Admin Add Product Page:

The screenshot shows a web page titled "Leen's Touch". At the top right, there are links for "Sign out", "My Cart", and a search bar with a magnifying glass icon. Below the title, there is a logo featuring a cartoon character holding a flower. The main content area has a header with four tabs: "Add a product" (which is active), "Products", "Promotions", and "About Us". The "Add a product" tab contains a form with the following fields:

- Name:**
- Price:**
- Product Description:**
- Colours Available:**
- Estimated Fulfilment Time:**
- Available:**

At the bottom of the form are three buttons: "Upload Image", "Cancel", and "Add to catalog".

- Admin is able to add a new product to the catalog by filling in the information in the Add a product form
- The form is designed to help the admin have a simple and efficient way of adding products to the catalog by having a nice User Interface
- All buttons are placed at the bottom to ensure a chronological order to each step of the process.

## Admin Promotions Page:

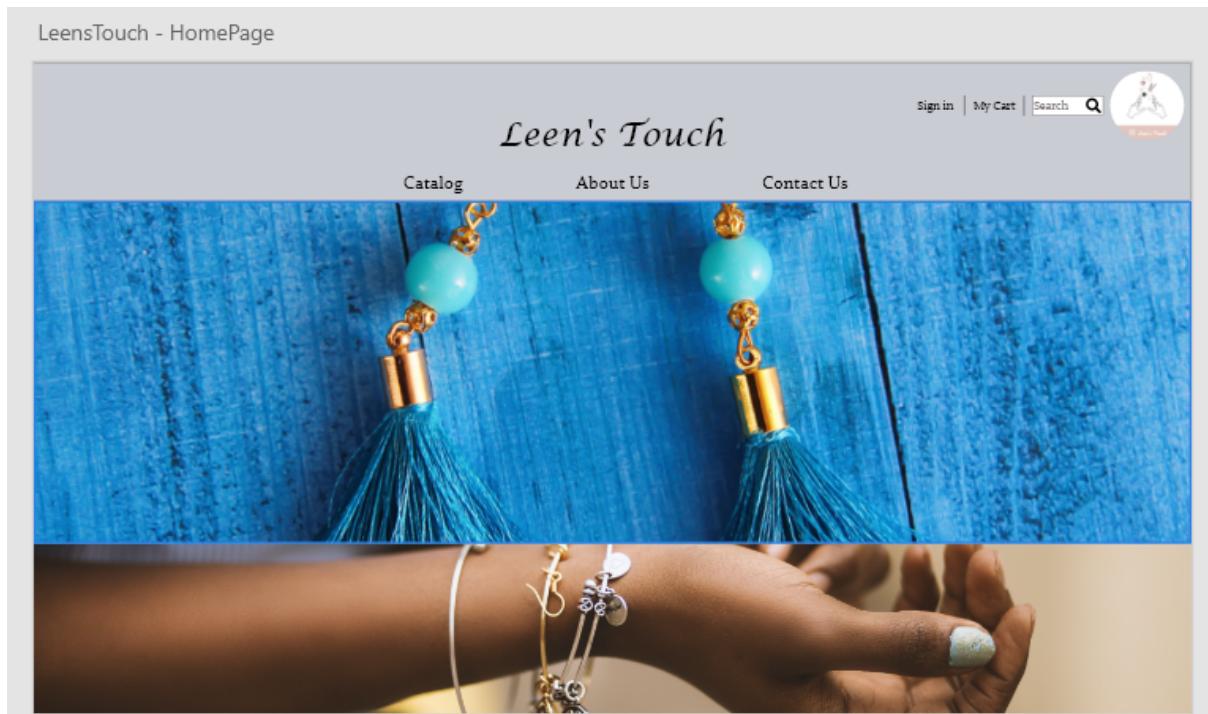

The screenshot shows a web application interface for 'Leen's Touch'. At the top right, there are links for 'Sign out', 'My Cart', and a search bar. Below the header, there are navigation tabs: 'Add a product', 'Products', 'Promotions' (which is currently selected), and 'About Us'. The main content area displays a table with the following data:

Username:	Email	Promotion
xxxxxxxxxx	xxxxxx@xxx.com	<input checked="" type="checkbox"/>
xxxxxxxxxx	xxxxxx@xxx.com	<input type="checkbox"/>
xxxxxxxxxx	xxxxxx@xxx.com	<input type="checkbox"/>
xxxxxxxxxx	xxxxxx@xxx.com	<input checked="" type="checkbox"/>
xxxxxxxxxxxx	xxxxxx@xxx.com	<input checked="" type="checkbox"/>

- The promotions page is displayed as a simple table which shows which clients accepted to receive email promotions along with their email address so the admin can easily choose who to send her promotions to.
- A simple design was imposed to avoid confusion.

LeensTouch - checkout

The screenshot shows a web-based checkout process for 'Leen's Touch'. At the top right, there are links for 'Sign out', 'My Cart', and a search bar. A logo featuring a cartoon character is also present. The main header 'Leen's Touch' is centered above a navigation menu with links to 'Catalog', 'About Us', and 'Contact Us'. On the left, a summary table displays the following information:

Subtotal	\$XXXX
Shipping	\$XXXX
<b>Total</b>	<b>\$XX.XX</b>

To the right of the table is a 'Payment' form. It includes fields for 'First Name' and 'Last Name' (each with a text input box), a 'Card Number' field (with a text input box), and fields for 'Expiration Date' (MM and YYYY) and 'CVV' (with a question mark icon and a text input box). A 'Purchase' button is located at the bottom of the form.

## Client's Comments

---

At the moment, our client is unavailable to give feedback on the User Interface Prototype.

## Prototype Changes

---

Due to a lack of feedback from our customer, there is not a second prototype with changes. This will be submitted when the Orange Team receives feedback from Mrs Antoun.

The only change brought to the prototype, thanks to teacher feedback, is adding an address input textbox at checkout so our client knows where to ship or deliver the orders as well as an option for delivery/shipping or pickup.

## Appendices (Revised)

---

### Appendix 01:

No changes to the User Stories have been implemented at the moment.

## Appendix 02:

No changes to the Story Map have been implemented at the moment due to a lack of change within the user stories.
